PROTECTION MADE IMPERCEPTIBLE

CAN A RIDING SHOE BE AS COMFORTABLE AS A CASUAL ONE?

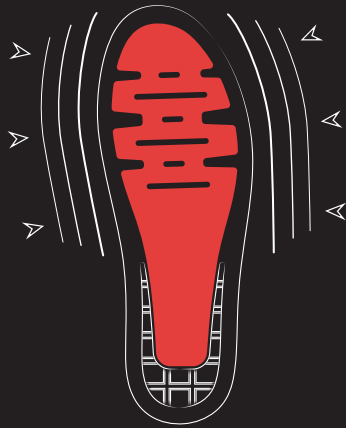

We started our research with this goal in mind
and engineered Fortex.

**THE INCREDIBLE INSIDE:
OUR FORTEX TECHNOLOGY**

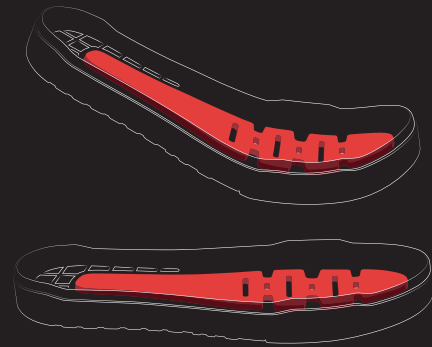

Fortex is an innovative construction that, while delivering all the safety of a CE-certified riding shoe, maintains incredible flexibility for greater walking comfort.

PROTECTED. ALWAYS

Fortex is engineered to withstand the forces of a motorcycle accident and meets the requirements of a CE-certified shoe.

MOVE FREE

With its unique fragmented shape, Fortex allows the foot's natural flexibility, delivering an all-day-around casual fit.

NUCLEUS

WALK ON AIR

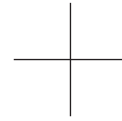

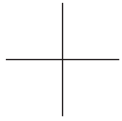

In the city or the outdoors,
Nucleus is designed to deliver an unmatched level of cushioning
for a greater walking comfort.
All in a certified protective shoe.

WATERPROOF and BREATHABLE

IMPACT PROTECTION

ARX

RIDE PROTECTED. WALK FREE.

Arx was designed with a clear goal:
that a protective shoe could deliver a natural walking experience.
That's Arx, protection when needed, comfort all day long.
